Re: WT Docket No. 01-309
Supplement to Petition for Temporary Waiver
Airadigm Communications, Inc.

Dear Ms. Dortch:

On behalf of Airadigm Communications, Inc. ("Airadigm"), I hereby supplement its Petition for Temporary Waiver submitted on September 20, 2006 ("Waiver Petition"). Airadigm currently complies with Section 20.19(d)(2) of the Commission's rules, which requires that "each provider of public mobile radio service must...[i]nclude in its handset offerings at least two handset models per air interface that comply with Section 20.19(b)(2) by September 18, 2006, and make available in each retail store owned or operated by the provider all of these handset models for consumers to test in the store...."

As explained in its Waiver Petition, Airadigm expected to offer at least two handsets with a U3T rating by no later than November 1, 2006. By October, 2006, it began including in its handset offerings the following handset with a UT3 rating: Motorola V197 (FCC ID # IHDT56GA1). By November, 2006, it began including in its handset offerings the following handset with a UT3 rating: Motorola RAZR V3 (FCC ID # IHDT56EU1). In addition, by March, 2007, Airadigm began including in its handset offerings the following handset with a UT3 rating: Nokia 6061 (FCC ID # QTLRH-74). Each of these handset

¹ Rule Section 20.19(b)(2) specifies that a "wireless phone used for public mobile radio services is hearing aid compatible if it meets, at a minimum" a UT3 rating for radio frequency interference under ANSI Standard C63.19

models are available for consumers to test in each retail store owned and operated by Airadigm.

Should any questions arise with respect to this matter, please feel free to communicate directly with the undersigned.

Very truly yours,

A handwritten signature in black ink, appearing to read 'TS' followed by a stylized surname, with a long, sweeping horizontal line extending to the right.
